25X1A MEMORANDUM FOR: Deputy for Technology, OSA

25X1A SUBJECT : Telephone Conversation with [REDACTED]
[REDACTED] of Itek

25X1A

25X1A

Mr. [REDACTED] requested drawings on the OXCART vehicle pertinent to possible installation of 112A or 112B systems in the vehicle. They plan tentatively to visit the West Coast the end of next week or the following week to examine the vehicle and look into the situation in more detail. Tom feels that a preliminary going-over of the drawings would assist them. He indicated that Mr. [REDACTED] was planning on giving them such drawings, but they have received none to date. I told them we would look into this and let him know early next week.
